

STEP BY STEP GUIDE ON HOW TO CREATE BULLION CURRENCIES ACCOUNT

Bullion Currencies

Introduction

We present to you, the first in Asia providing the most convenient way to make payment for goods and services from your mobile app using PG-Pay with our participating merchants and accumulate your wealth through gold with real allocated gold holdings to eliminate high storage cost and buy and sell spread from traditional physical gold purchase.

Bullion Currencies is an online platform brought to you by Singapore's premier private mint, PureGold.sg Pte Ltd. Customers are now able to buy physical gold at a competitive price of only 2% above the international gold Spot Price, with secured storage at no charge.

You can also sell it back to us online at an attractive rate of only 0.5% below international gold Spot Price. Besides providing an online platform where customers are able to buy and sell gold, you can also now use your gold as a means of payment when purchasing goods and services.

We firmly believe in the notion of "Gold is Money" and has taken this literally into the e-commerce world. Working together, we provide customers an all-round service and pleasant experience when dealing with their gold transactions.

How Bullion Currencies Work – An Overview

STEP 1

Gold is purchased at 2% premium above the spot price. Bullion Currencies will back up and securely store the total amount of gold in a third party vault.

STEP 2

Customers may use the gold bullion to pay for goods and services. The transactions may be between Business to Business (B2B) or Customer to Business (C2B). The payee will pay 1.5% of the transacted amount to Bullion Currencies.

OR

Customers may also choose to sell their stored bullion at 0.5% below spot price. The spread between the buy and sell price for Gold is competitive at 2.5%.

STEP BY STEP GUIDE

STEP 1:

Sign-up bullion currencies gold saving account using this link

<https://www.bullioncurrencies.com/signup?ref=A00041>

STEP 2:

Sign-up as a member as shown in the screenshot and click **Register**

The screenshot shows the 'BULLION CURRENCIES MEMBER PANEL' sign-up page. The page title is 'SIGN UP AS A MEMBER' with a 'MOBILE NO' label. The form includes the following fields and elements:

- Individual Sign Up** (dropdown menu)
- Full Name** (text input field containing 'JC')
- E-MAIL** (text input field containing 'nat118@gmail.com')
- COUNTRY CODE** (dropdown menu containing 'Singapore (+65)')
- MOBILE NO** (text input field containing '82960219')
- 6 DIGIT PIN** (text input field containing '.....')
- PASSWORD** (text input field containing '.....')
- SELECT BOX** (dropdown menu containing 'Singapore')
- ENTER IMAGE CODE** (checkbox checked, with text 'I agree with the BC Individual Client Terms and Conditions')
- Image Code** (text input field containing 'Z9Fef')
- Register** (button)

Annotations with red arrows point from the labels to the corresponding form fields. The background of the page shows a hand holding a smartphone displaying the Bullion Currencies mobile app interface.

STEP 3:

Login to your e-mail and click on the link for **Verification**

STEP 4:

To login to your account, go to: <https://www.bullioncurrencies.com/login> to enter e-mail and password and click **Sign in**

STEP 5:

Install **Google Authenticator** on your phone

STEP 6:

Once you login, remember the first thing you need to do is configure the 2FA

STEP 7:

Click **Activate**

STEP 8:

Use your **Google Authenticator** app from your mobile and **Scan** the QR code with your phone camera. Then enter 6 Digit Authentication Code from Google Authenticator and click **Activate virtual 2FA**

STEP 9:

Congratulations!, you have successfully activated 2FA on your account.

Manage 2FA (Two Factor Authentication) device.

Congratulations!, you have successfully activated 2FA on your account.

To activate a virtual 2FA device, you must first download the Google Authenticator app on [App Store](#) or [Google Play](#) and install it in your smartphone.

Using your Google Authenticator app, scan the following QR code with your smartphone's camera.

OR

Type the secret configuration key manually on your Google Authentication app.

XHCZZUH6YTTPXVXTGZ43CAL5J4GO5EQRXHJ4TAXBT3BWIEXPB6ZEUDMIQ3VK2NY2

After the application is configured, enter the authentication code in the box below and click Activate virtual 2FA.

STEP 10:

Edit profile to enter your **address**, select **bank name**, **bank account no** and **image of front bank statement** with your full name / company name and bank account number. If you register under company, please attach image of Bizfile certificate.

The screenshot shows a web application interface for editing a profile. On the left is a dark sidebar with navigation options: Dashboard, Transactions, Agent, My Account, My Profile (selected), and BC Main Site. The main content area is titled 'Address' and contains the following fields:

- Address:** A text input field containing '88A In Damipalis #01-01 Singapore 577183'. Below it is a note: 'Note: Type your address in full here'.
- Bank name:** A dropdown menu with 'DBS' selected.
- Bank Account No.:** A text input field containing '500900108'.
- Front Page of Bank Book or Statement Showing Full Name / Company Name, Bank Name and Bank Account Number:** A text input field containing 'C:\fakepath\bank-statement.jpg' and a 'Browse' button. Below it is a note: 'Note: Please attach the front page of your bank book or statement, showing full name/company name, bank name and account number.'
- Business Registration Certificate:** A text input field containing 'C:\fakepath\bizfile.jpg' and a 'Browse' button. To the right is a 'Profile Image' label and another 'Browse' button. Below it is a note: 'Note: Please attach the business registration certificate'.
- Description:** A text input field with a note: 'Note: Only Image files, below 5MB, allowed'.

STEP 11:

Click **Save**

The screenshot shows the same web application interface, but now the 'Business Registration Certificate' field is filled with 'C:\fakepath\bizfile.jpg' and has a 'Browse' button. The 'Description' field is empty. Below the description field is a note: 'Note: Some description about this.' The 'ETH Wallet' field contains 'ETH Wallet'. The 'Live Status' field has a toggle switch set to 'ON'. The 'Date Added' field contains 'July 30, 2017'. At the bottom right, there are 'Back' and 'SAVE' buttons.

STEP 12:

Double check all your details are **correct**.
